

TRAINING

- 2010-2012 Donetsk National Technical University (DonNTU), Department of Radio Engineering and Specialized Training (DREST), Donetsk, Ukraine
- Radio-electronic devices, systems and complexes (master).
- 2006-2010 Donetsk National Technical University, Department of Radio Engineering, Donetsk, Ukraine
- Radio (bachelor).

PRACTICE

- 2010 Research Institute of Complex Automation (RICA)
- Carried out duties of the younger research assistant
 - Acquaintance with current workings out of design department RICA, search of element base with the set parameters, acquisition of skills of work on testing of products
- 2009 Donetsk branch of Broadcasting, Radio & Television Concern (DB BRTC)
- Carried out duties technics-electromechanics
 - Work with the information-measuring complexes transferring FM-stations, control of a condition of tele-radio ether
- 2008 Research Institute of Complex Automation (RICA)
- Introductory practice
 - Acquisition of data on scientific research institute activity, acquisition of skills in work on testing of products for operation severe constraints

AREAS OF COMPETENCE & AREAS OF RESEARCH INTEREST

- Telecommunications;
- Radio;
- Metrology;
- Computer programming, simulation;
- Sociology.

WORKING WITH COMPUTER

1. Operating System: Microsoft Windows, Linux.
2. Application areas: MS Office, LabVIEW, Mathcad, Maple, P-CAD, HFSS – Ansoft, MMANA.
3. Programming Languages: C / C ++, Pascal, VHDL, Assembler for MCS51.
4. Development Environment: Delphi, LabVIEW.
5. Working with internet technologies: web-sites in the languages of HTML and XHTML.

LANGUAGES

- Ukrainian (native, C2);
- Russian (proficiency in perfection, C2);
- English (advanced level threshold, B2);
- French (basic level prethreshold, A2).

FELLOWSHIPS AND AWARDS

Over the entire period of study received a scholarship, including increased.

Awards:

- Diploma for the best paper at the XIII International youth scientific-practical conference "Human and Space";
- Reward certificates for achievements in education;
- Diploma of awardee of the Ukrainian Competition (phase II) in Metrology And Measurement Technology for excellent knowledge of methods and instruments for measuring electrical quantities.

OTHER ACTIVITIES

2007-2008 Headed the commission on scientific and study in trade-union bureau of DREST of students and post-graduate students trade union of DonNTU. Since September, 2010 I am the trade- union organizer of the academic group of masters RES-10m. Hobbies: sports (sports radio direction finding, orienteering, rock climbing, cycling), and amateur radio; tourism (bicycle tourism, hiking). I have the sports category.

I have a great interest in designing, sociology, psychology of interpersonal relations.

SUGGESTIONS REGARDING THE PROPOSED WORKPLACE

Prospective place of work – department of technical maintenance of the enterprise, a field of activity – telecommunications, radio electronics; the work schedule – standard, with deviation possibility in an operating mode from norm (1-3 working days for month).
